FROM: Megan Terry
Service Hydrologist / Meteorologist
NWS Springfield Missouri

SUBJECT: Discontinuing Forecast and Warning Services For:

The Osage River near Schell City, MO

Effective Monday May 1, 2023 at 800 AM CDT...NOAA's National Weather
Service /NWS/ Office in Springfield, MO will discontinue river
forecast and warning services for the following location:

The Osage River near Schell City, MO (SCZM7)

The reason for the discontinuation is that an improved gaging
station which measures both streamflow and stage is located
downstream from Schell City at Taberville, MO (TBVM7). The current
gage near Schell City only measures stage, and has experienced
periodic problems when the river is cresting above flood stage.

The area near Schell City will be included in the river flood
warning polygon for Taberville, and impacts near Schell City will be
included in river flood warnings for Taberville.

Specific NWS Products Affected Include:

FLOOD WARNING	- FLW	WGUS43	STLFLWSGF
FLOOD STATEMENT	- FLS	WGUS83	STLFLSSGF
HYDROLOGIC STATEMENT	- RVS	FLUS83	STLRVSSGF
HYDROLOGIC OUTLOOK	- ESF	FGUS73	STLESFSGF
