Christmas Day Weather Climatology for West Central & Southwest Florida

Over the last century we have seen a wide range in the weather conditions on Christmas Day with some being warm and muggy while others like 2022 were cold and dry. As expected though we have never had a white Christmas. This year we're looking for some patchy early morning fog followed by mostly sunny skies on Christmas Day with temperatures starting out in the 50s to lower 60s and then climbing into the mid 70s to lower 80s. These temperatures will be above normal for Christmas Day across West Central and Southwest Florida.

Below are tables listing the Warmest and Coldest Christmas Days broken down by high and low temperature, the Wettest Christmas Days, along with the 1991-2020 normal (average), and the number years we've seen measurable rain on Christmas Day at sites across the region.

Christmas Day High Temperatures (°F):

Location	ID	Normal High	Warmest High /Year	Coldest High /Year	Records Began
Archbold Bio Stn	ACHF1	76	86/2016*	41/1989	1969
Bartow	BARF1	74	86/2016	48/2022	1892
