January 2025 Climate Summary for West Central and Southwest Florida

This January we saw a wide range of temperatures with many days well below normal, some 10 to 20 degrees below normal, while a few others were slightly above normal. On seven of the coldest days freezing temperatures occurred across parts of the Nature Coast while further south some central inland areas saw some frost with isolated spots near freezing. Overall, the average temperatures for January ranged from about 2°F to nearly 7°F below normal, with some of the official climate sites ending up in the Top Ten Coldest for January.
