# Preliminary July 2022 Climate Summary for West Central and Southwest Florida

Temperatures across West Central and Southwest Florida have averaged near to a couple of degrees above normal so far for July 2022 with a few locations potentially ending up in the Top Ten Warmest for July, including Tampa which is on track to set a New Record for the Warmest Month since records began in 1890!

Graphics Source: NOAA Regional Climate Centers

As for rainfall, it has been highly variable across the region which is not too unusual due to the random nature of our summer thunderstorms. So far for the month some areas are well above normal rainfall (blue/green areas on right image below) while other locations are well below normal (yellow/orange areas on right image below).

July 1-30, 2022 Rainfall

**Percent of Normal** 

On the following pages are tables of the Top Ten Warmest, Coolest, Wettest, and Driest Julys at some official NWS locations, which include the average/total so far for this July where available, and the 1991-2020 Normal (average) temperature and rainfall for the month of July.

## Chiefland 5 ESE (records began July 1956):
