Record Rainfall in May 2018 at Several Locations Across West Central and Southwest Florida

The big story this May was the rainfall with seven of the official NWS locations setting new records for the month and several others in the Top Ten.

MAY RAINFALL (inches):

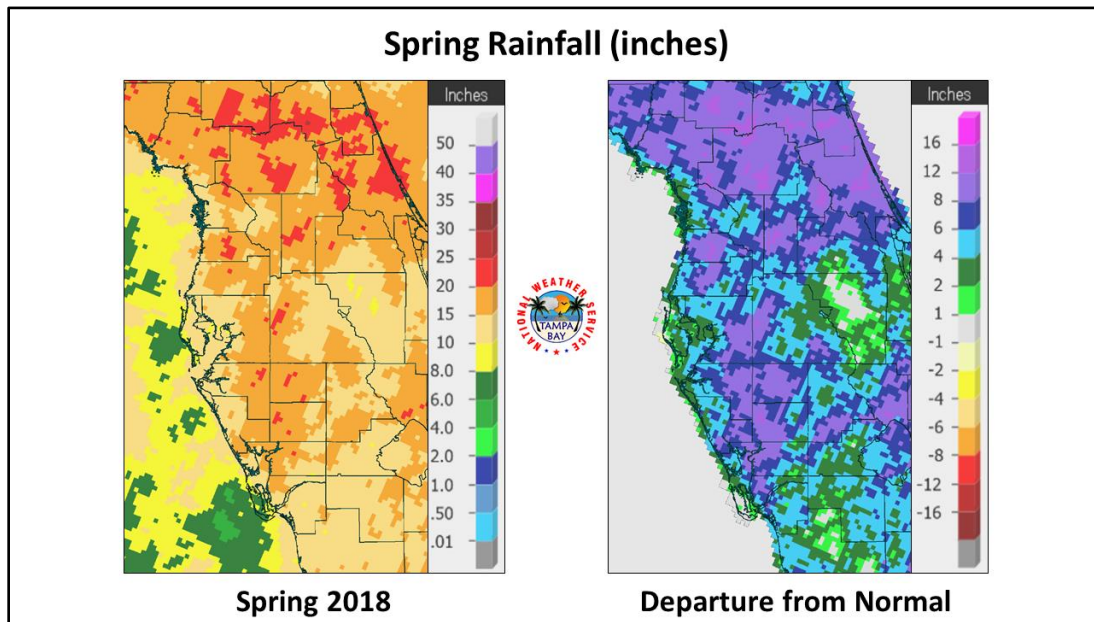

Location	Rank	May 2018 Rainfall	Normal May Rain	Departure fm Normal	Record	Records Began
Lakeland	1st	19.19	3.36	+15.83	16.03/1979	1915

Following are tables of the Top Ten Warmest, Coolest, Driest, and Wettest Mays and Springs at some official NWS locations, which includes the average/total this May and Spring 2018 where available, and the 1981-2010 Normal (average) temperature and rainfall. We also saw many more days than normal with measureable rainfall (≥ 0.01 inch) this May at many locations and the Top Five Number of Days with measureable rainfall in May are included.

Chiefland 5 ESE (Records began July 1956):
