

## Storm Data and Unusual Weather Phenomena - December 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

### OKLAHOMA, Eastern

(OK-Z054) OSAGE, (OK-Z055) WASHINGTON, (OK-Z056) NOWATA, (OK-Z059) PAWNEE

12/01/11 00:00 CST	0	Drought
12/31/11 23:59 CST	0	

Although rainfall was plentiful across much of eastern Oklahoma over the past couple of months and drought conditions subsequently improved over much of the region, severe drought conditions persisted across Osage, Pawnee, Washington, and Nowata Counties through December. Rainfall across much of these counties during the month averaged slightly below normal in December. Monetary damage estimates resulting from the drought were not available.
