Event Type and Details Location Date/Time Deaths & Property & Injuries **Crop Dmg** Portions of several roads were flooded in and around Charleston, with flood water entering some residences. FRANKLIN COUNTY --- 0.5 ESE CASS [35.68, -93.81], 0.2 W BARNES [35.65, -93.82], 1.6 SW TURNERS BEND [35.65, -93.85], 1.2 WNW CASS [35.69, -93.84] 09/23/25 19:20 CST 0 Flash Flood (due to Heavy Rain) 09/23/25 21:00 CST 0 Source: Emergency Manager Portions of Highway 23 north of Turners Bend were flooded. Strong to severe thunderstorms developed into northwestern Arkansas from the northwest during the afternoon of the 23rd, and additional thunderstorms developed across the area during the late afternoon and evening as a cold front moved through the region. The strongest storms produced large hail to ping pong ball size and damaging wind gusts. Locally heavy rainfall from these thunderstorms produced some flash flooding. OKLAHOMA, Eastern LE FLORE COUNTY --- 1.0 E HEAVENER [34.88, -94.58] 09/15/25 15:12 CST 0 Hail (0.75 in) 0 09/15/25 15:12 CST Source: Trained Spotter LE FLORE COUNTY --- HEAVENER [34.88, -94.60] 09/15/25 15:20 CST 0 Thunderstorm Wind (EG 56 kt) 09/15/25 15:20 CST 0 Source: Trained Spotter Strong thunderstorm wind snapped large tree limbs. Isolated strong to severe thunderstorms developed across far eastern Oklahoma during the afternoon and early evening of the 15th. Moderate instability developed during the afternoon in the hot and humid air mass, but wind fields and wind shear were very weak. This combination of instability and wind shear resulted in intense, but short-lived thunderstorms, the strongest of which produced hail up to penny size and damaging downburst wind gusts. CRAIG COUNTY --- 4.3 WSW PYRAMID CORNERS [36.78, -95.22] Thunderstorm Wind (MG 54 kt) 09/20/25 04:54 CST 0 09/20/25 04:54 CST 0 Source: Mesonet The Oklahoma Mesonet station near Vinita measured thunderstorm wind gusts up to 62 mph.
