

Oklahoma, Eastern February 1994

Eastern Oklahoma, 09 0200CST- 0 12 Ice and Snow
Zones 065>071-073>0751700CST

Freezing rain, sleet, and snow occurred across eastern Oklahoma on February 9th as an upper level disturbance moved across the area following the passage of an arctic cold front. Numerous accidents occurred as a result of icy roads, with the most serious accident being a 10 car pile up on Interstate 40 just west of Okemah which injured 5 persons. 7 other persons were injured in 4 separate accidents around Okmulgee.

Severe thunderstorms developed in northeast Oklahoma during the late afternoon and early evening of February 19th and produced damaging winds. Thunderstorm winds estimated at 70 to 75 miles an hour occurred at and near Neversweet Airport 2 miles southwest of Kellyville. The winds flipped over a mobile home, injuring 2 persons, and destroyed an airplane hangar and a barn. Several other outbuildings were damaged and trees were uprooted in this same area. Strong thunderstorm winds caused damage to 1 house and 1 mobile home 7.25 miles south of Bristow. Thunderstorm winds gusted to 65 miles an hour 5 miles south of Bixby and to 60 miles an hour at Glenpool, where a privacy fence was downed and a few homes sustained minor roof damage. Strong thunderstorm winds at Vinita blew a window out of the high school, and cars at the high school had windows broken by wind blown objects. The backstop at Memorial Field in Vinita was damaged and several wooden fences in town were downed. Thunderstorm winds gusted to 65 miles an hour near Cleora in Delaware County. These winds caused roof damage to 2 homes, destroyed a machine shed, uprooted trees, and overturned an empty semi trailer. Damage in Delaware County was estimated at around \$25,000. Strong thunderstorm winds near Fairland destroyed a poultry house and 2 barns and also uprooted trees.
