

Earliest and Latest First Occurrence and Last Occurrence for Specific Temperature Thresholds and Averages

High Temperature of 110 degrees or higher

	Earliest	Latest
First Occurrence	April 8, 1989	June 15, 1953 and June 15, 1998
Last Occurrence	September 1, 1985	October 8, 1996
Average*	May 15	September 24

High Temperature of 100 degrees or higher

	Earliest	Latest
First Occurrence	March 16, 2013 and March 16, 2007	May 20, 1983
Last Occurrence	September 24, 1939	October 28, 2017 and October 28, 1934
Average*	April 12	October 13

High Temperature of 90 degrees or higher

	Earliest	Latest
First Occurrence	January 16, 2021	April 23, 1941
Last Occurrence	October 6, 1920	November 20, 2002
Average*	March 10	November 3

Low Temperature of 40 degrees or below

	Earliest	Latest
First Occurrence	October 14, 1928	December 12, 2021
Last Occurrence	January 15, 2005	April 13, 1912
Average*	November 19	February 16

Low Temperature of 32 degrees or below

	Earliest	Latest
First Occurrence	October 07, 2000	N/A**
Last Occurrence	N/A**	March 15, 1919
Average*	December 12	January 15

*Averages are based off the 1991-2020 Normal Period.

**Three winter seasons had no freezing temperatures at Death Valley.
