

**WESTERN REGION TECHNICAL ATTACHMENT  
NO. 98-44  
DECEMBER 29, 1998**

---

**INDEX OF 1998 TECHNICAL ATTACHMENTS**

98-01	Jan	13	A Record Rainfall Event Over the San Francisco Bay Area August 1997 (Richard Canepa - NWSFO Monterey, CA and Scott Archer - COMET/NWSFO Monterey, CA)
98-02	Jan	20	A Summary of Significant Issues from the 1997 NCEP Annual Review (Jon Mittelstadt - WRH-SSD, Salt Lake City, UT)
98-03	Jan	27	The Eta-32 Model (Jon Mittelstadt - WRH-SSD, Salt Lake City, UT)
98-04	Feb	03	Chaff in the Vicinity of Thunderstorms in Southern California on 6 June 1997 (Brandt Maxwell and Daniel V. Atkin - NWSO San Diego, CA)
98-05	Feb	10	A Brief Description of Java and Its Utility on Web Pages (Daran L. Rife - NWSO Spokane, WA)
98-06	Feb	17	The Warning and Verification Team: A WCM Pilot Project at NWSFO Boise - August 1996 to June 1997 (Jennifer J. Hill - NWSFO Boise, ID)
98-07	Feb	24	The Lemoore Naval Air Station Classic Supercell Tornado of 22 November 1996 (Raymond Krzdlo II - NWSO San Joaquin Valley, CA)
98-08	Mar	03	Precipitation Algorithm Improvements in the Eastern Sierra (Mary M. Cairns - NWSFO Reno, NV, Arlen Huggins - Desert Research Institute, Reno, NV, and Steven Vasiloff - NSSL/NWS WRH SSD Salt Lake City, UT)
98-09	Mar	10	Composite Maps of Selected Warm Events in San Diego (Daniel V. Atkin and Joseph A. Dandrea - NWSO San Diego, CA)
98-10	Mar	17	An Intranet Observation Monitor (David Zaff - WRH, SSD Salt Lake City, UT)
98-11	Mar	24	Washington County High Winds (Mark Struthwolf and Ed Carle - NWSFO Salt Lake City, UT)
98-12	Mar	31	VR/Shear Interpretation (Raymond Krzdlo, II - NWSO San Joaquin Valley, CA)
98-13	Apr	07	An Application of the MM5 to Modeling High Winds in Complex Terrain: A Case Study in the Eastern Sierra (Mary M. Cairns and Jonathan Corey - NWSFO Reno, NV)
98-14	Apr	07	An Evaluation of NCEP Guidance for California January 31, 1997 to February 8, 1998 (Jon Mittelstadt - WRH, SSD Salt Lake City, UT)
98-15	Apr	14	The Observation of a Supercell Thunderstorm Over High Terrain in Northern Arizona (Tony Perez - NWSO Flagstaff, AZ)
98-16	Apr	14	SAMEX '98: The 1998 Storm and Mesoscale Ensemble Experiment (SAMEX Work Group - A reprint of SR TA98-7)

98-17	Apr	21	Synoptic Patterns Associated with Snow Accumulation in Las Vegas, Nevada (Scott Cordero, Paul Skrbac, and Dave Kosier - NWSO Las Vegas, NV)
98-18	Apr	28	GOES-10 Provides High Temporal Resolution of Treasure Valley Outflow Boundaries (Gregory A. DeVoir - NWSFO Boise, ID)
98-19	May	05	Deficiencies in the AWIPS Model Data-Set (Jon Mittelstadt - WRH, SSD Salt Lake City, UT)
98-20	May	12	Model Boundary Layer Problems and Their Impact on Thunderstorm Forecasting in the Western United States (Eric C. Evenson - NWSFO Boise, ID and Mark H. Strobin - NWSO Spokane, WA)
98-21	Jun	02	A Description of the Fifth Generation Penn State/NCAR Mesoscale Model (MM5) (James A. Nelson, Jr. - WRH-SSD / NWSFO-SLC)
98-22	Jun	23	The AVN/MRF Model Enhancements (James A. Nelson, Jr. - WRH-SSD/NWSFO-Salt Lake City, UT)
98-23	Jun	30	The Eta Precipitation Forecasts for the Tucson Area During the Landfall of Tropical Storm Nora (Bill Ludwig - NWSO Tucson, AZ)
98-24	Jul	7	Use of Thermodynamic Information to Predict Low-Reflectivity Microbursts (Steve Vasiloff - NOAA/ERL/NSSL - NWS/WRH/SSD, Salt Lake City, UT; Stacy Stewart - NWS/OSF/OTB; and Mike Splitt - University of Utah, Salt Lake City, UT)
98-25	Jul	14	Examination of Mesocyclone Core Evolution of a Nocturnal Supercell Thunderstorm in Central Oregon (Scott Birch and Joe Solomon NWSO Pendleton, OR)
98-26	Jul	21	Local Software Applications Guidelines (Kellie Hansen - NWS/WRH/SSD - Salt Lake City, UT)
98-27	Jul	21	An Examination into the Utility of the Build 9 Hail Detection Algorithm (HDA) Across Northern Utah (Randall A. Graham - NWSFO Salt Lake City, UT and James A Nelson - NWSFO/WRH-SSD, Salt Lake City, UT)
98-28	Jul	28	An Example of Weak Dynamic Forcing in an Unstable Wintertime Atmosphere (Mark H. Strobin and Ronald Miller - NWSO Spokane, WA and Eric Evenson - NWSFO Boise, ID)
98-29	Jul	28	AWIPS System Administration Program (Jason Burks - WRH-SSD Salt Lake City, UT)
98-30	Aug	11	High Intensity Short Duration Precipitation, Flash Flooding, and the WSR-88D (Tom Egger - NWSFO Boise, ID and Steve Vasiloff - NSSL/NWS/WRH/SSD - Salt Lake City, UT)
98-31	Aug	11	The Rapid Pace of Science and Technology in the NWS and the Continued Need for Professional Development and Training (Andy Edman - WRH/SSD - Salt Lake City, UT)
98-32	Aug	25	TAF Verification Results -Idaho, Winter 1997-98 (Les Colin - NWSFO Boise, ID)
98-33	Sep	01	Winter Precipitation Climate Forecast and Trends in Arizona During the 1997-98 El Niño Event (Tony Perez - NWSO Flagstaff, AZ)

98-34	Sep	15	What Really is "Normal?" (Mike Staudenmaier, Jr. - NWSO Flagstaff, AZ)
98-35	Sep	29	San Joaquin Valley Hail Event - December 13, 1995 (Robert P. Nester - NWSO San Joaquin Valley, CA)
98-36	Oct	06	An Outstanding performance by the Eta-10 for the Southern California Storm of 23 February 1998 (Greg Martin - NWSFO Los Angeles (Oxnard), CA)
98-37	Oct	20	Severe Hail Detection Using VIL Density and its Application in the Western States (Ivory J. Small, Daniel V. Atkin, and Thomas E. Evans III - NWSO San Diego, CA)
98-38	Oct	27	The Northern Arizona Snowstorm of 12-14 January 1997: A Model Simulation (Mike Staudenmaier, Jr. and Kenneth Wallingford - NWSO Flagstaff Arizona)
98-39	Nov	11	Western Region Model Diagnostics (Kirby Cook - WRH SSD, Salt Lake City, UT)
98-40	Dec	01	GOES Sounder data in ETA Model (Kevin J. Schrab - WRH, SSD, Salt Lake City, UT)
98-41	Dec	15	Development of a Thunderstorm Risk Assessment Checklist for the Phoenix Metropolitan Area (Jesus A. Haro - NWSO Las Vegas)
98-42	Dec	22	Utilizing GOES-10 High Density Winds in the Forecasting Process (William Rasch and Mark H. Strobin - NWSO Billings, MT)
98-43	Dec	29	An Assessment of Experimental thunderstorm and Rainfall Forecast Techniques for the Grater Phoenix Metropolitan Area During the Summer Convective Season (Chris Breckenridge - NWSFO Phoenix, AZ)
98-44	Dec	29	Index of 1998 Technical Attachments
