Spring Weather Hazards

- Tornadoes
- Thunderstorms
- Lightning
- Flooding
- Tsunamis
- Heat
- Spring Break Safety

weather.gov/safety
Spring Weather Safety
Severe Weather

• Thunderstorms can produce tornadoes, strong wind, large hail, and lightning
• Practice a severe weather plan for home and work
• Make a communications plan so you can contact loved ones
Spring Weather Safety

Tornadoes

- Winds from tornadoes can exceed 200 mph
- Flying debris is most dangerous
- Seek a sturdy shelter in an interior room away from windows on the lowest floor and cover your head

weather.gov/safety
Spring Weather Safety
NWS Tornado Products

1. Tornado Warning
Tornado expected! Seek shelter. A tornado is occurring or will shortly at this location on the map.

2. Tornado Watch
Tornado possible. Be prepared. Weather conditions favor thunderstorms capable of producing tornadoes at this location on the map.

Emergency Alert
Tornado warning for this area until 8:15 pm. Take shelter immediately. Check local media. - NWS

Wireless Emergency Alert
Emergency Alert
Severe thunderstorm warning for this area until 7:30 pm. Take shelter. Check local media. - NWS

weather.gov/safety
Spring Weather Safety

Lightning

• Thunderstorms produce lightning
• Lightning kills an average of 30 people every year
• Take shelter inside a sturdy structure
• A vehicle is also a safe location

weather.gov/safety
Spring Weather Safety

Flooding

- Flooding can be caused by snow melt, ice jams, and heavy rain
- More than half of all flood fatalities are vehicle-related
- Never drive through flood waters

weather.gov/safety
Spring Weather Safety

Snow Melt

• Water stored in the snowpack goes into the rivers when the snow melts in spring
• Spring flooding can affect large river basins
• Never drive through flood waters
Spring Weather Safety

Ice Jams

• Ice jam flooding occurs when chunks of ice build up and prevent water from flowing downstream
• This can lead to rapid rises upstream from the ice jam
• Never drive through flood waters
Spring Weather Safety

Heavy Rain

- Heavy rain on saturated soil can lead to flooding
- More than half of all flood fatalities are vehicle-related
- Obey road signs and never drive through flood waters
Spring Weather Safety

NWS Flood Products

1. Flood Warning
Flooding expected! Take Action. Confidence is high that flooding which poses a significant threat to life and property is occurring or will shortly. Seek higher ground if you are in a flood-prone area. Never drive through flood waters!

2. Flood Watch
Flooding possible. Be Prepared. Confidence is medium that flooding may develop. Find out if you are in a flood-prone area. Check the forecast and be ready to take action if a flood warning is issued.

Spring Weather Safety

Heat Safety

• Heat and humidity take a toll on the body
• Know the signs of heat illness
• Reschedule outdoor work and strenuous activities until the coolest time of the day
• Stay hydrated by drinking plenty of water

weather.gov/safety
Spring Weather Safety

Heat Safety

- Sunburn and heat illness can be avoided
- Apply and reapply sunscreen to protect your skin from sunburn
- Stay hydrated by drinking plenty of water
Spring Weather Safety
NWS Heat Products

1. Excessive Heat Warning
   Excessive Heat Expected! Take Action. Confidence is high that extremely hot weather will cause significant stress on the people and animals unless precautionary measures are taken. Avoid direct sunlight, drink plenty of fluids, and find a cool indoor place is possible.

2. Excessive Heat Watch
   Excessive Heat Possible. Be Prepared. Confidence is medium that extremely hot weather will develop across the region. Have a plan in place to avoid strenuous activity during the warmest parts of the day. Make sure children, elderly, and pets are taken care of in case extreme heat develops.
Spring Weather Safety

Spring Break Safety

• Thousands of people will travel for Spring Break
• Learn about rip currents before heading to the beach
• Plan for your trip by checking the forecast at weather.gov
Spring Weather Safety

NWS Rip Current Products

Rip Current Statement

Rip Currents are Expected! Use Caution! Conditions are favorable for rip currents along the beach. Be able to spot rip currents so you can avoid them. If you do get caught in a rip current, swim parallel to shore until you are out of the rip current, and then angle back towards the beach.

weather.gov/safety
Spring Weather Safety

Spring Break Safety

• Beach flags help alert swimmers about potential dangers
• Look for beach flags before you enter the water
Spring Weather Safety

Spring Break Safety

- Check the forecast so you know what weather to expect
- Sunburn and heat illness are avoidable by using sunscreen and staying hydrated
- Have a safe and fun spring!
