

WHAT

WEATHER-READY NATION

September is National Preparedness Month.

Being prepared for any weather is important!

A program helps people prepare for weather.

This program is Weather - Ready Nation.

This content was created in collaboration with the National Weather Service.

Weather - Ready

Nation

has a website.

The website has information about weather.

People visit the website.

They learn about weather in their areas.

People learn how to be safe in dangerous weather.

The National Weather Service leads Weather - Ready Nation.

The National Weather Service is a government group.

Many meteorologists work for the National Weather Service.

Meteorologists are scientists.

They study weather.

Some meteorologists work at weather offices.

These weather offices are across the U.S.

Meteorologists work with communities near the offices.

They teach people how to be safe.

The meteorologists look for dangerous weather.

Dangerous weather can be anywhere !

Dangerous weather includes

floods,

lightning,

fog

and wind.

Temperatures can be dangerous too.

Very hot

or

very cold

temperatures can hurt

people.

People should know when dangerous weather is coming.

Weather reports can help.

Weather reports tell people about weather in their areas.

People get weather reports from

A weather report may include a watch or a warning.

MON	TUE	WED	THU
81 65	66 59	72 58	75 50

or

A watch means people have time to prepare.

Dangerous weather may be coming.

A warning means go quickly to a safe place.

Dangerous weather is coming !

Any place can have dangerous weather.

Being prepared can help people be safe.

This week's News-2-You® Extension Activity can help.*

It is about preparing for dangerous weather.

How will you prepare for dangerous weather?

* The Extension Activity is located on the News-2-You website, on the Current Issues tab.

WHO
?

METEOROLOGIST

A meteorologist is a scientist who studies weather.

Meteorologists

collect data,

do research,

do weather reports

and more.

Some meteorologists are on TV.

They do weather reports on news channels.

WHERE

WEATHER OFFICES

The National Weather Service has weather offices.

It has more than 100 weather offices in the U.S.

100

People follow the weather offices on social media.

The weather offices share information about weather.

The National Weather Service headquarters is in Maryland.

READY-FOR-THE-DAY CEREAL

NEED

individual pkt
instant hot cereal

$\frac{2}{3}$ C water

jam in
squeeze bottle

small
microwave-safe bowl

spoon
