Quarter size hail reported at the intersection of Nolana and 23rd in north McAllen, and at the intersection of Savannah Avenue and 2nd Street (Col. Rowe Boulevard).

HIDALGO COUNTY 3.5 NNE SHAYLAND [26.26, -98.25]						
03/26/15 12:10 CST	0	Hail (1.75 in)				
03/26/15 12:15 CST	0	Source: Public				

Golf ball size hail was reported at the intersection of North Ware Road and Lark Street.

A severe thunderstorm developed quickly in rural eastern Starr County and roared into western Hidalgo County near Citrus City before racing through the cities of Alton, Mission, Edinburg, McAllen and Pharr. Hail fell for five to ten minutes at any one location, and ranged in size from half dollar size to quarter size in Mission, Alton and Palmhurst. The initial burst of hail came with 60 to 65 mph winds, which removed a poorly anchored roof of a trailer home in Alton and blew down some power lines and healthy large mesquite limbs.

Damage estimates from the hail were difficult to quantify, but from video and photographs posted to social media during the event, the area from Palmhurst to Alton (north of Mission, Texas) appeared to have several instances of minor damage to vehicles and one building (stripped siding) for a total estimated cost of \$2500.
